A 9D theatre recently opened in our park, promising to make you physically feel just about anything that happens on the screen, from a pleasant drizzle to a car accident. "The Viewers can feel everything that happens on the screen and they are part of the film. The hydraulic seats can move in several directions and we have provided effects of snow, Lightning, smoke, wind, rain, fire, and fog. When a racing sequence is happening, the audience actually feels they are driving the car and if it falls into a gorge, they will feel the weightlessness as it falls and a light thud when it hits the ground. Added to this, the smell effect means that the entire atmosphere on screen is recreated"

Each show will be of 15 minutes duration and the viewers can close a set of three films.

"The collection is a mix of action horror and children's movies. Any set of three movies will enable the viewers to experience most of the effects. Most of these films were made in Japan or China".

School package offer: **Rs.80/-** per head.
